The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Yamada (JP2000-184860).

In regard to claim 1, Yamada discloses adding powdered collagen to flour which flour is capable of being used to make bread. In regard to claims 2-10, these claims recite properties or capabilities of collagen, which capabilities or properties are inherent in collagen, so that the collagen of Yamada anticipates these claims as well.

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-10 are rejected under 35 U.S.C. 102(a) as being anticipated by Shin (KR2003065671).

In regard to claim 1, Shin discloses adding powdered collagen to flour which flour is capable of being used to make bread. In regard to claims 2-10, these claims recite properties or capabilities of collagen, which capabilities or properties are inherent in collagen, so that the collagen of Shin anticipates these claims as well.
